

Hello,

I would like to thank you again for providing me with a scholarship to attend flight school. I just wanted to send an update on how my experience at Liberty is going.

I have done extremely well my first semester and have already logged over 15 flight hours and am well underway to getting my private pilot's license.

I really enjoy flying the Cessna 172 as well as the simulators and have found that Liberty uses only the best equipment for us as students to use.

My flight instructor has been extremely helpful as I have shown great improvement from knowing nothing to the pilot I have turned into.

Already have I learned simple things like how to taxi and speak to air traffic control to more complex things like ground reference maneuvers, takeoffs, landings, slow flight, and stalls.

I have quickly learned that my professors are some of the best as they have a lot of experience in military, commercial, and corporate aviation.

I have enjoyed flying so much that I am already researching companies that I hope to work for when I reach my ultimate goal of becoming an international commercial pilot.

I thank you again for providing me with the opportunity to attend such a wonderful institution and I hope you enjoy my update about my first semester.

I will be sure to keep in touch with everyone at the Christian Airmen Educational Foundation and if you have any question about my experience, please feel to send me an email back.

Sincerely,
Jesse Field
